

Conducive Learning Environments for Whole-person Development

Our Hung Hom Bay Campus and West Kowloon Campus came into operation in September 2007 and June 2008 respectively. With a total floor area of over 57,000 square metres, these two campus buildings offer state-of-the-art facilities and aesthetically pleasing environments that enhance learning.

Both campuses each have more than 50 standard classrooms and 9 lecture theatres, and each campus hosts the following cutting-edge learning facilities:

- 2 “Tomorrow Classrooms” equipped with the latest audio-visual equipment
- 6-7 IT laboratories
- Spacious computer centre with a seating capacity of 270-300
- Library equipped with advanced e-resources centre
- 5 language laboratories

In recognition of the unique green features of our Hung Hom Bay Campus, the Professional Green Building Council, the organiser of the Green Building Award 2008, has decided to upgrade the Merit Award (New Construction Category) which the campus won in the competition to the platinum standard. The campus is the first educational building in Hong Kong which has been awarded this highest rating. Our West Kowloon Campus, on the other hand, has been selected as one of the six finalists from a long list of 27 entries for the WAN Education Award 2009 organised by worldarchitecturenews.com, a leading architectural news supplier.

優質學習環境 培育全人發展

學院的紅磡灣校園及西九龍校園，先後於2007年9月及2008年6月啟用。兩所校園的總面積逾五萬七千平方米，均備有各種完善的設施，為學員提供理想的學習環境。

兩所校園除各自設有逾五十個課室及九個演講廳外，更各自設有以下先進的教學設施：

- 兩間設有先進視聽設備的「明日課室」
- 六至七間資訊科技學習室
- 電腦中心，可容納二百七十至三百人
- 圖書館設有先進的電子資源中心
- 五間語言學習室

紅磡灣校園的環保設計，更贏得不少讚賞。2008年環保建築大獎主辦機構「環保建築專業議會」經進一步實地勘查及評估，將紅磡灣校園由原本的優異獎(全新建築類別)提升至白金級別，令紅磡灣校園成為全港首座榮獲這項最高建築級別的校舍。而西九龍校園則在全球27個校舍建築中脫穎而出，獲入選為「2009年度教育建築獎」的最後六強。是項國際建築獎由著名建築資訊公司WAN (worldarchitecturenews.com)主辦，角逐獎項的眾多教學建築物均由世界各地建築師精心設計建造。
